Summary

Results-driven Full Stack Developer with 2+ years of experience building scalable web applications using MERN stack and Next.js. Proven track record of delivering high-impact solutions, optimizing performance by 40%, and improving user engagement by 35%. Adept at end-to-end development, Agile methodologies, and cross-functional collaboration. Achieved 50% ROI for a self-built e-commerce store through SEO and technical optimizations.

Skills

Frontend: React.js, Next.js, HTML5, CSS3, SCSS, Tailwind CSS, JavaScript (ES6+), TypeScript

Backend: Node.js, Express.js, REST APIs, Serverless Functions

Databases: MongoDB, SQLite, Firebase, Supabase, PostgreSQL

CMS: Prismic, Contentful

Tools: Git, Github, Vercel, VS Code, Zed, Slack, Notion, Trello

Soft Skills: Problem-Solving, Agile/Scrum, Leadership, Client Communication, Technical Writing

Professional Experience

Full Stack Developer | The MindHackers (June 2022 - Present)

- Developed Python/C++ scripts for data analysis tools, improving processing speed by 25%.
- Built 10+ MERN stack applications with 85% user satisfaction; authored technical documentation for 5+ projects.
- Collaborated on Agile teams to streamline deployment pipelines, reducing errors by 30%.

Freelance Developer | Fiverr (August 2022 - Present)

- Delivered 15+ C++ solutions for various tasks, achieving 5/5 client ratings.
- Engineered full-stack e-commerce platforms (React + Node.js) with 40% faster load times via code optimization.
- Communicated with 10+ global clients to translate requirements into scalable technical solutions.

Frontend Developer Intern | Risidio (August 2023 - October 2023)

- Led UI/UX redesign for a blockchain application using React.js, boosting user engagement by 30%.
- Conducted 10+ technical interviews; streamlined onboarding for 2 developers, reducing ramp-up time by 40%.
- Implemented Agile workflows (daily standups, retrospectives), improving team velocity by 25%.

Education

Bachelor of Science in Computer Science (BSCS) (2021 – 2025)

- Institute of Space Technology (IST)
- **CGPA:** 3.99
- **Relevant Coursework:** Web Development, Mobile Application Development, AI, DSA, DAA, DS, OOP, SE, SQA, Parallel and Distributed Systems, Visual Programming, Computer Vision

Publications

Book Chapter: AI and IoT-Driven Smart Cities: A Centralized Approach to Urban Mobility in AI-Driven Transportation Systems: Real-Time Applications & Related Technologies

Springer, Information Systems Engineering and Management Series (2025)

- Contributed research on AI integration in real-time transportation systems.
- Peer-reviewed publication highlighting expertise in scalable AI architectures.

Projects

YT-DLP-GUI (Video Downloader Tool) | [GitHub](#)

TechStack: Python, Tkinter, YT-DLP CLI

- Created a user-friendly GUI wrapper for YT-DLP CLI, increasing accessibility for non-technical users by 90%.
- Automated video/audio format conversion, reducing manual input steps by 70%.

SolvSpot (Web Solutions Agency) | [Live Site](#)

TechStack: Next.js, Prismic CMS, GSAP

- Built a dynamic agency website with GSAP animations, enhancing user interaction scores by 40%.
- Integrated Prismic CMS for content updates, reducing client edit time by 50%.

SenWare (Inventory Management System) | [GitHub](#) | [Live Demo](#)

TechStack: Next.js, TypeScript, PostgreSQL, Prisma, ShadcnUI

- Developed a full-stack system with barcode generation, category management, and NextAuth authentication.
- Optimized PostgreSQL queries, reducing report generation time by 30%.
- Engineered server actions for seamless CRUD operations, improving data processing speed by 25%.

Emblancia (E-commerce Store) | [Live Store](#)

TechStack: Ecwid, SEO, Google Analytics

- Achieved 50% ROI through SEO optimization, keyword targeting, and Google Ads campaigns.
- Increased organic traffic by 65% using Ahrefs-driven strategies and technical on-page optimizations.

MediCloud Billing Solutions | [Live Site](#) | [GitHub](#)

TechStack: Next.js, SCSS, EmailJS, Tawk.to, Vercel, Zoho

- Developed a comprehensive medical billing solution, handling over 500 claims per month.
- Integrated EmailJS and Tawk for real-time communication, increasing client engagement by 35%.
- Deployed on Vercel, ensuring 99.9% uptime and rapid load times, improving user retention by 20%.
- Configured Zoho for CRM and automation, reducing administrative workload by 40%.

Personal Portfolio | [Live Site](#)

TechStack: Next.js, TypeScript, SCSS, Contentful, EmailJS, Vercel, Zoho

- Achieved 100% uptime and 50+ monthly visitors through Vercel deployment and SEO optimization.

CandyCorp E-commerce | [GitHub](#)

TechStack: MERN, SCSS, Coinbase API

- Enhanced mobile responsiveness using SCSS, increasing mobile engagement by 20%.
- Reduced server response time by 40% via MongoDB indexing and query optimization.

Certifications

- TypeScript Variables and Data Types (Coursera)
- Crash Course on Front End Development - HTML, CSS, JavaScript (Great Learning)
- Front End Development - CSS (Great Learning)
- Front End Development - HTML (Great Learning)
- JavaScript (Basic) (HackerRank)
- JavaScript (Intermediate) (HackerRank)
- Node (Basic) (HackerRank)
- React (Basic) (HackerRank)
- Go (Basic) (HackerRank)
- Go (Intermediate) (HackerRank)
- ReactJS for Beginners (Simplilearn)
